Garnet Publishing Ltd. Spiral bound. Book Condition: new. BRAND NEW, Technical English for Engineering (Teacher's Edition), Fiona McGarry, David Morgan, Nicholas Regan, Take-Off: Technical English for Engineering Teacher's Book Take-Off has been designed for non-native speakers of English who are studying Engineering (NVQ Level 2 and above. The aeronautical context is particularly aimed at technicians and engineers who are going on to work in the aeronautics industry. Take-Off is an ESP course for intermediate-level students. Unlike many ESP courses, it teaches genuine transferable skills and is ideal for students who need to further their technical training in English. The focus is on skills development, using relevant contexts, with grammar taking a strong supporting role. Reading and listening development is dealt with in the context of understanding instructions and information in technical manuals. Students develop the speaking skills of asking for and giving factual information, and the writing skills necessary to complete workplace documentation, such as accident reports and safety assessments. Take-Off uses a communicative methodology, with graded tasks that are carefully scaffolded to involve and motivate the students, providing them with a clear sense of achievement. The wide variety of texts and task types will appeal to a broad range...
