Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1915 Excerpt: .the rinse water to gush back and forth and wash off the remainder of the milk. Then take the machine apart, and with the special brushes, these parts are cleaned in luke warm water containing some washing powder. Then rinse these different parts in clean water and transfer them into the disinfectant solution. Experiments with the different kinds of disinfectants have been conducted. There are several substances that are satisfactory. For cheapness and simplicity, there is nothing better than ordinary lime. It excels as a deodorizer. It freshens and sweetens the different parts of the milking machine. From a standpoint of disinfecting, it compares favorably with any of the other substances. The ordinary limate purchased in paper sacks has proven handy and efficient. With this, it is easy to make up a standard and fresh solution. This latter should be done at least once each week. In some instances, it is necessary to prepare a fresh solution twice a week. A 2 per cent solution by weight is suitable. A stronger solution than this does no harm. In connection with keeping everything connected with the milking machine plant sanitary, the vacuum The Empire Milking Machine. pipes should be carefully looked after. Except when the pail gets too full of milk, there is not much danger of milk gaining entrance into the vacuum system. Considerable moisture, however, evaporates from the milk and condenses in the vacuum pipe. In addition, dust and other foreign substances will accumulate. This,...
