Reviews

The most effective publication i at any time go through. This is certainly for all those who statte that there had not been a worthy of looking at. Its been printed in an extremely straightforward way which is merely soon after i finished reading this publication where basically changed me, change the way in my opinion.

GENERAL, NOTES. Study and Observation of the Planets. In common with other publications like this, we have had little to say about the study and observation of the planets, not because there is little or nothing to say, but because many other things have claimed our attention too fully for time or space for this most interesting line of astronomical work. The fact that, for some time past, The Observatory (English) has had a continued article from month to month, by the pen of an able writer on astronomical themes has brought this matter forcibly to mind and it is our purpose to supply for our readers something of this kind in the near future. Another thought about such matter is the possibility and even the probability that such a course, if rightly pursued, might stimulate observation of the planets and their satellites, in various ways, that would be useful to astronomy. There is plenty of opportunity for useful work in this delightful field. Great Solar Protuberance, Aug;-10, 1905. We have chosen for our frontispiece, a...
